

ENRICHMENT FUNDS

The Friends of Nantucket Public Schools (“FONPS”) offers grants to faculty and/or administration of the Nantucket Public Schools (“NPS”) who submit formal requests for funding to underwrite enrichment projects and programs which may not be fully covered by the NPS District or a particular school’s budget. Requests should prioritize programs that provide opportunities for social emotional learning and/or which directly related to and enhance existing curriculum materials and issues. Priority will be given to new programming and enrichment that benefits a broad age group. Funds are equitably distributed to the Upper (NHS and CPS) and Lower (NIS and NES) schools.

FONPS encourages applicants to seek supplemental funding from other community resources and/or to consider collaboration with local non-profits which have missions corresponding to the content and objectives of the proposed enrichment program.

Faculty and/or administration should discuss project ideas with fellow staff members to reach a consensus. Applications should be voted on by teachers and then approved by the administration prior to submission to FONPS.

FONPS Enrichment Committee will consider requests on a case-by-case basis. Applicant(s) will be informed of decisions regarding submission within two (2) full weeks of submission.

For questions, comments, and application submission, contact the FONPS administrative assistant at: friendsofackschools@gmail.com.
